## PRESIDENT'S MESSAGE

Dear Students,

Education plays a key role in the overall development of the society. The role of education is definitely not limited to giving and grasping knowledge and theory. The true goal of education transcends much beyond just awarding degree and certificate to the students. As Mahatma Gandhi said, "By Education I mean an all-round drawing out of the best in child and man-body, mind and spirit". The ultimate goal of education is the discovery of the meaning of life and the fulfillment of life and all mankind as well as for oneself. The quest of education is knowledge, humanity, culture, wisdom and sharpness but it should be noted that knowledge is not given but earned and character is not granted but cultivated.

It is my proud privilege to welcome you all to the institute that provides quality education in the field of nursing education and paramedical sciences. I know, you are joining this institution with great aspirations and high ambitions. The aim of our college is to provide you with those facilities which are essential for development of a harmonious personality. Our effort is that of a mason to train you with the aim of building you into a technically sound, honest worker, conscious and solid pillar for future. We are committed to uphold the age old traditions and ideals in the field of education and to the cause of students' community, to help them mould their future and achieve their aspirations by providing a highly learning and inspiring atmosphere.

With Best Wishes,  
President,  
Sephali Memorial Nursing Institute
